PROFILE

After a year collaborating on web development projects, I've become skilled in backend technologies like PHP/Laravel and Node/Express.js, as well as frontend tools like JavaScript/Vue.js and React. I'm particularly adept at backend development and hold certificates in Laravel.

I've successfully contributed to projects like POS, LMS, book rendering, and CMS systems, showcasing adaptability in cross-functional teams. My commitment to staying current in this ever-evolving field drives my eagerness to bring technical proficiency to innovative projects.

SKILLS

- HTML/CSS
- Tailwind/Bootstrap
- Java Script/ Vue/ React
- PHP/ Laravel
- Node/ Express
- Git and GitHub
- MySql/MongoDB
